

Elzbieta Krawecka

BIOGRAPHY

Elzbieta Krawecka paints landscapes that inspire the imagination and evoke mystery and calm. "One can't quite see what is happening under the canopy, or in the distance; yet the works convey a calm certainty that whatever it is - there is peace..." Angela Bugera

Born in Poland, Krawecka moved from Krakow with her family to Kuwait on the Persian Gulf at a very young age. Her Parents worked as architects in Kuwait for nine years, before coming to Canada.

She has mastered some of the old European painting techniques in combination with her own personal interpretation of the transient nature of light. She uses thick and opaque paint that is often applied with a palette knife and then followed by translucent glazes of thinner washes.

Her landscapes are inspired by her travels across the provinces and into the Yukon and Alaska. The landscapes are not specific places, rather she paints from impressions and memories. They are places of her heart and imagination. Elzbieta refers to them as depicting the universal space of collective memory.

She received her formal training at the Ontario College of Art and design (OCAD) 1989-1994, and she participated in OCAD's Off-Campus Program in Florence, Italy 1992-1993.

Krawecka has exhibited her work through Canada since 1997. She has earned numerous awards and distinctions for her work and has been exhibiting across Canada and in Europe since 1993.
