

### **Ernestine Tahedl (RCA)**

Born in Austria, Tahedl received a Master's degree in graphic art from the University of Applied Art in Vienna in 1961. ### **Artist Statement:**

*"All art constantly aspires towards the condition of music."*

*Walter Pater (1839-1894)*

The recent Series of paintings allows me to immerse myself into "pure" painting without being lost in it.

Over the years I have searched for this freedom in my work I explore and try to find the balance between the realistic image and the pictorial values for my paintings.

The concept of multiple canvases and panels has always fascinated me.

I hope that spirituality and serenity are integral to my work, colour and light are additional factors that guide my work. Colour to me is light.

For me, the Series comes close to a musical experience and was painted and inspired while listening to Symphonies and Operas which are reflected in the titles of the works.
